

# City of Loma Linda Official Report

Floyd Petersen, Mayor  
Stan Brauer, Mayor pro tempore  
Robert Christman, Councilmember  
Robert Ziprick, Councilmember  
Charles Umeda, Councilmember

COUNCIL AGENDA: August 16, 2005

TO: City Council

VIA: Dennis R. Hallaway, City Manager 

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer 

SUBJECT: Award Contract for Waterline Replacement on Anderson Way  
between the One Million and 100,000-Gallon Reservoirs.

## **RECOMMENDATION**

It is recommended that the City Council award the contract for the waterline replacement between the one million and 100,000 gallon reservoirs to TK Construction of Rimforest for \$88,765 and authorize a contingency allocation of \$9,000.

## **BACKGROUND**

The waterline between the two reservoirs is currently located in easements crossing several privately owned parcels. The line recently experienced three leaks one of which caused sever erosion to a vacant lot. The age and condition of the line indicates a high probability of similar events occurring.

## **ANALYSIS**

City policy is to locate pipelines within roadways whenever possible. This helps to mitigate and limit the impact to private property due to pipeline failures, repairs or maintenance. This pipeline will be realigned to the existing roadway as much as possible. Due to the urgency of the situation and in an effort to minimize cost the City will provide the pipeline, valves, services and connections required for the project.

The City solicited three bids for this work. The bids ranged from \$88,765 to \$168,000. The low bidder, TK Construction of Rimforest, has satisfactorily completed work for the City previously. They have made themselves available to begin work as soon as we require.

## **FINANICIAL IMPACT**

Funding for this project will be provided from Account 65-7020-8500 – Waterline Replacement in Zone 3, \$400,000.

## **AGENDA ITEM 7**
